Dear Ms. Clark:

I would like to personally thank you for the amount of time and resources you and your agency have put into assisting King County Animal Care and Control on its investigation on the Solomon criminal case.

As a result of your dedication and persistence, the carefully documented evidence and factual information you provided directly resulting in the court's ability to bring Ms. Solomon to justice and ultimately resulted in the conviction for Animal Cruelty in the Second degree for the horses that suffered under Solomon's care at the Pacific Equine Center.

Had it not been for the incredible effort and work you and your organization put into assisting us with this investigation, this may not have been possible.

Thank you for your continued work for the animals.

Sincerely,

Nancy McKenney, Interim Manager
King County Animal Care and Control
